

# **Notice to Village of Canwood Bulk Water Users**

Please be advised that the Bulk Water Dispensing System will be non-operational starting Wednesday, August 5 until Friday August 7, 2020.

The Village of Canwood will be swabbing the raw water supply line and cleaning and disinfecting the potable water reservoirs at the Water Treatment Plant. While this work is taking place, the bulk water dispensing system will not be available as the Village will be operating on a very limited water supply. During these repairs, all users of the Village's waterworks system will be placed on a \*Precautionary Drinking Water Advisory (PDWA) and will remain until all water sampling meets water quality standards.

## **Information and Dates to Remember:**

- Wednesday, August 5 – work will commence, bulk water dispenser non-operational
- Thursday, August 6 – work will continue
- Friday, August 7 – if no problems are encountered, work should be completed sometime during the day and bulk water dispenser should be operational.

\*As a reminder to users, per terms and conditions, water sold in bulk by the Village of Canwood is sold as none potable water.

If you have any questions or concerns, please call the Village of Canwood office at (306)468-2016.
